

ScreenWatch™ 4.0

The *Best Software* for Monitoring/Managing Computer Activity

ScreenWatch™ 4.0 is an intuitive, software package which allows up to five administrators/instructors to gain control of the student PCs on the network. Remotely access any PC connected to the network using ScreenWatch™ 4.0. Perfect for computer instructors, administrators, and managers who need to monitor and manage computer activity.

View Student Screens

Remotely view any screen one at a time or up to 16 simultaneously. Easily identify computer activity via status board.

Application/Web Block

Control and eliminate students from entering unapproved applications/URLs.

Application/Web Alert

Automatically alerts you when a student is trying to enter an unapproved application/ URL. You designate which sites are not permissible.

Capture Student's Screen

Capture a student's screen and save it to a file for documentation. You can print and store for future reference.

Blank Student Screens

Gain your students undivided attention and keep them focused by blanking their screens.

Freeze Keyboard/Mouse

Prevent undesirable student input such as surfing the internet or checking email.

Automatically Scan

ScreenWatch™ 4.0 will cycle through the class and display the student images.

Power Down PCs

Conveniently, save time and energy by turning off student PCs right from your desk.

ScreenWatch Features:

SET WEB BLOCKS/WEB ALERTS

AUTOMATICALLY SCAN

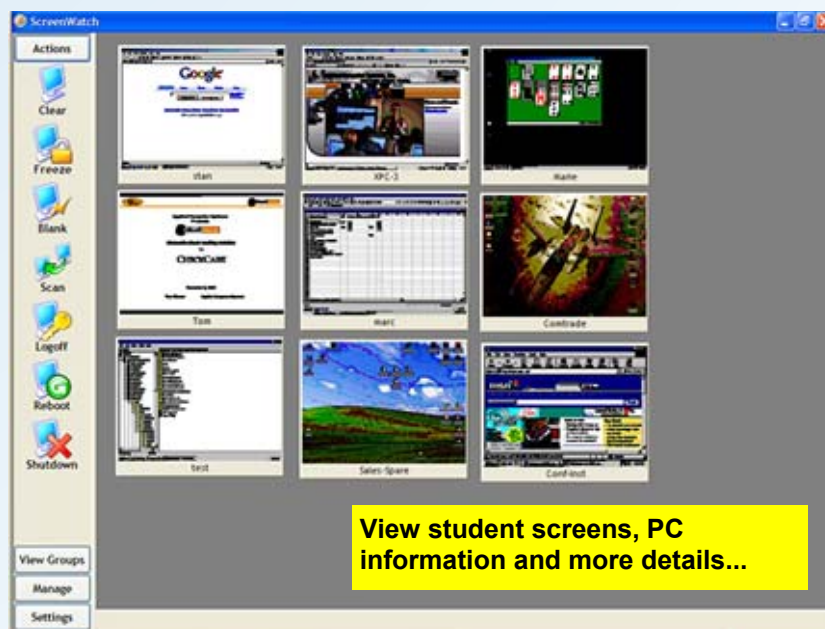

VIEW MULTIPLE SCREENS

BLANK SCREENS

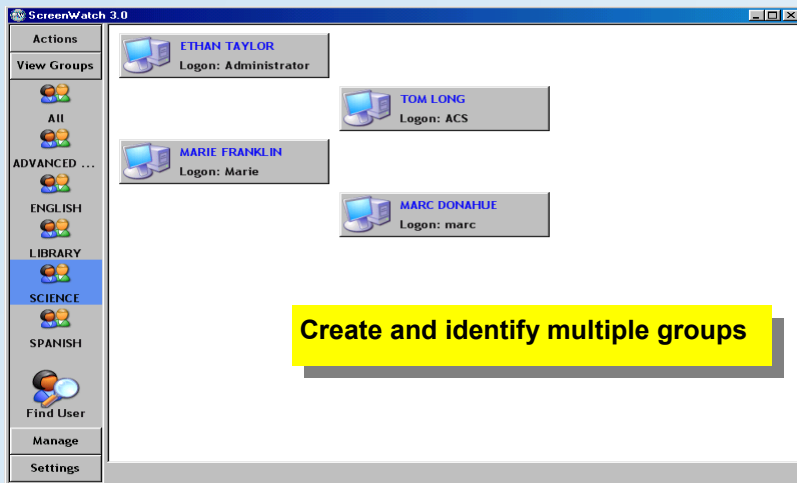

FREEZE KEYBOARDS/MICE

PRINT SCREENS FOR DOCUMENTATION

REMOTELY REBOOT/SHUTDOWN PCs

View student screens, PC information and more details...

Find Student

Quickly locate a student on the LAN. Simply type in their name, press the "find-user" icon and ScreenWatch™ 4.0 does the work for

Log-off Students

You select this icon when a student needs to work independently from the class.

Group Capabilities

Create and assign any number of students to a group or multiple groups. Identify the group by the course, professor, room number, etc.

Reboot Student PC

If you need to reboot a PC or a group of student PCs simply select this icon. Saves time and eliminates walking around the classroom to manually reboot the PCs.
