

Mobile LINK Systems

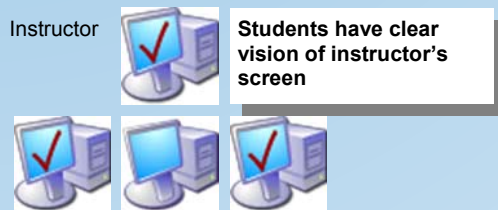

Computer Classroom Management System

The Mobile LINK System is an intuitive hardware solution that allows an instructor to take control of every student's PC, and increases student retention rates. The instructor has the flexibility to select an individual student, a group or the entire classroom at the touch of an icon. Now, you can walk freely throughout the classroom, and remotely operate any PC with the New Mobile LINK System.

LINK System features

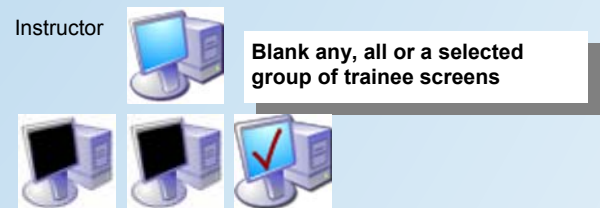

Broadcast Video

Sends instructor's PC image to trainee screens in real-time, full-motion video.

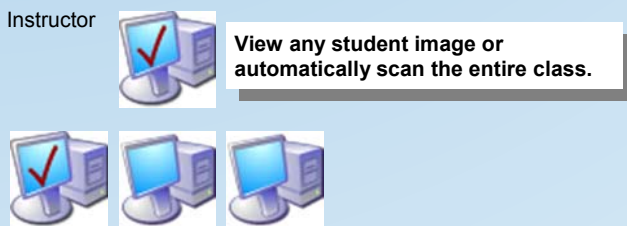

Blank Screens

Projects a "Black" screen to trainee monitors to gain their undivided attention.

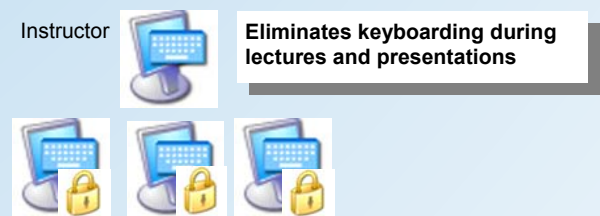

Supervise

Instructor can monitor students, detecting on-the-fly if students are having problems or if they are forging ahead on their own.

Freeze Keyboard/Mouse

Freeze any or all trainee keyboards/mice to stop trainees from surfing the internet or checking email.

Projector Control/Laptop Compatible

Send your laptop image to the trainee monitors in real-time video. In addition, you can send any trainee screen directly to the projector for group discussions.

Software Keyboard/Mouse Control

Remotely control students' keyboard/mouse, transfer control to others, and administer instant surveys. Discreetly alerts you when students need help.

Share Multimedia Video

Utilize multimedia capabilities by sending DVD, VCR, TV, and CD-ROM images from the instructor PC to all trainee monitors or vice-versa, for picture perfect viewing. No delays, no loss of resolution, on any PC.

Specifically designed for you

Upgradeable/Expandable

You choose your starting point. The LINK System was designed with the flexibility to upgrade from our basic LINK Projection System to our top-of-the-line Mobile LINK System. Whether you are increasing the number of PCs in your classroom or re-designing a training room the LINK System is expandable with a plug-n-play design.

Divided/Partitioned Training Room

With the LINK System, an instructor can combine two training rooms into one larger instructor-led classroom. Each instructor can work separately with their students or combine classrooms for one primary instructor at a touch of a button.

Custom-Tailored Instructor Console

The LINK System console represents a mirror image of your classroom. User-friendly icons offer one-step commands and are easily identified. Personalize your display by assigning student names to icons. Customize your menu to fit your teaching needs.

Mobile LINK System Equipment

System Specifications:

Display:
10.4" touch-screen panel

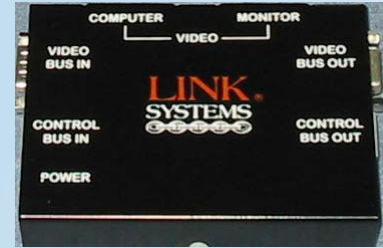

Adapter:
Input: AC100V-240V 50/60 Hz, Output: DC16V, 2.5A

Battery:
Battery Life: 2-3 hours, Charging Time: At least 2.5 hrs.

Dimensions:
H(8.5"), W(11"), (2")D

Weight:
Approximately 2.5 lbs.

A lightweight, wireless mobile instructor console.

Student Control Unit:

Dimensions:
H (1"), W (4.5"), D (3.75")
Weight: 9 oz. Color: Black

"Without a doubt your LINK System is one of the best training investments I have made to improve the quality of training in our Call Centers. My trainers consider it one of their best tools and are extremely upset when they are at a location without LINK. Thank you all the support, along with making the system so easy to install and use."

*Mike Reynolds
Verizon Wireless*

"I teach the Business & Computer classes to the students in the Ag Program here at NIACC and wouldn't want to teach those classes again without the support of your system. I've found that I have to spend less time controlling and more time in teaching"

*Laura Schurtz
North Iowa Area C.C.*

Options

Software Options	Hardware Options	Service Options
<p>LINK Stylus—Presentation Tool Highlight, clarify and illuminate your presentation</p> <p>SATT— Student attendance, comprehensive testing, instant surveys & tracking program</p> <p>LINK Console Software Enables third party panels/tablets to be used as the instructor console.</p>	<p>Wired—Keyboard/Mouse Control A hardwired version of the software keyboard/mouse control feature.</p> <p>Language Audio System Talk with students, listen to students, share conversations in stereo.</p>	<p>ACS Installation/Training Ensures peace of mind when time is of the essence.</p> <p>Extended Warranty Guarantees years of valuable service.</p>
